TOGAF®

MDG Technology provides open standards modeling for TOGAF 9.1

TOGAF® MDG Technology™

The Open Group Architecture Framework (TOGAF) is one of the most widely accepted methods for developing enterprise architecture, providing a practical, step-by-step approach.

Sparx Systems equips Enterprise Architect users with a model-based framework for implementing architectures using the TOGAF-9.1 Architecture Development Method.

Tightly integrated with Enterprise Architect, MDG Technology for TOGAF extends UML 2.5 to support The Open Group's approach to information systems architecture
